## WESTERN CANADA'S **PROSPERITY**

NOT A BOOM, BUT DUE TO NAT-URAL DEVELOPMENT.

One of the largest banks in Holland has been doing a big business in Western Canada, and Mr. W. Westerman, the President, on a recent visit into the Provinces of Manitoba, Saskatchewan and Alberta, expressed himself as being much impressed with present conditions and prospects, and was convinced that the great prosperity of the Dominion was not a boom, but merely the outcome of natural developments.

Not only has money been invested largely in Western Canada by the Holland Banks, but by those of Germany, France, as well as Great Britain. Not only are these countries contributing money, but they are also contributing people, hard headed, industrious farmers, who are helping to produce the two hundred million bushels of wheat and the three hundred million bushels of the other small grains that the Provinces of the West have harvested this season.

During the past fiscal year there came into Canada from the United States 133,710; from Austria Hungary 21,651; from Belgium 1,601; Holland 1,077; France 2,094; Germany 4,664; Sweden 2,394; Norway 1,692; and from all countries the immigration to Canada in that year was 354,237. From the United States and foreign countries the figures will be increased during the present year.

Most of these people have gone to the farms, and it is no far look to the time when the prophecy will be fulfilled of half a billion bushel crop of wheat in Western Canada. Advertise

DREW THE LINE.

and the tenderest memories of the nation meet American bird is always the piece pper as sources of wealth. Our de resistance at a Thanksgiving dinand cluster. Do you ever ner. The domestic bird retains some on corn yield us enough to feed our traits of primitive wildness and as a people and replenish the exhausstop to think how new this country is? Should you go to Rome you would find more old walls and every farmer's wife knows, is prone monuments and buildings that have to wander away, and travels, by prefbeen standing for centuries, and still erence, in a flock. testify to the past splendor of the

once imperial city. Crossing the At-

lantic and setting foot on the shores

of England, the past greets you on

every hand. You are immediately

made aware that our friends across

the water are living among old tradi-

tions, while in their ceremonials, as

when a king was crowned with his

queen at his side, they are keeping

up the customs and recalling the gran-

who have sought us from the far east,

from the islands of the ocean, from

northern and southern Europe, and,

indeed, from everywhere beneath the

sun. To my mind there is something

wonderful and significant and heart-

stirring in the thought that a man of

our choice in Washington in the

White House presides as our chief ex-

obeys. By one consent Americans,

native-born and adopted into our

ranks from abroad, cease from busi-

ness, observe a holiday and thank

God on the last Thursday of Novem-

ber. Everyone does not go to

church, but the churches are open.

There are services, there is exquisite

music and eloquent sermons are

preached, and the nation is thus up-

lifted to a higher plane, and there is

an obvious reminder that we owe

thanks to our Creator and praise to

Another charming feature of this

peculiarly popular and wholly Amer-

ican holiday is the assembling of fam-

illes around the Thanksgiving dinner

table. Again look back, not over a

thousand years, but over very nearly

three hundred, and you will see how

significant was the origin of this

annual jubilee. In 1621 Governor

Bradford of Massachusetts issued a

proclamation to the little colony set-

ting apart a day of Thanksgiving for

the first in-gathering harvests. Should

you ever go to Plymouth, Mass., and

stroll through the old graveyard there,

tears would spring to your eyes even

now when you saw by the records on

tne stones that Death was very busy

in reaping the first harvest of life in

New England. These hardy pioneers

who came to our bleak Atlantic coast

that they might have freedom to wor-

ship God as they chose, were made of

stuff too strong to be daunted by

illness, want, famine or death. The

attacks of hostile Indians in the night

did not turn them from their purpose

of settling in the new country, and

their scorn of peril and their determin-

ation to snatch success from apparent

defeat. The first harvest was scanty,

but they assembled in church and

thanked God for it, and in their homes

they sai down to the best dinner they

could provide. The wild turkey fur-

our Father in heaven.

sand years.

Still looking back, we discover that after 1621 other colonies followed the ness there is a plague of grasshop example of Massachusetts. After the Revolution the governors of various and again there are floods, sta' 1 issued proclamations as Governor Bradford had done. But it was not until 1863 that the day became national. It was then that the president proclaimed a general thanksgiving, and this good custom has been folproclaimed a general thanksgiving, and this good custom has been followed until the present year.

Home Influence Upon Child

Thought From Jane Addams Which Demonstrates Its Lasting Effect Is Worth Consideration.

A mother croons an old-time song as she toils. A father speaks kindly as home from work he crosses the threshold which leads to wife and rest from labor. The child-the stepping stone between mother and father, the connecting link-hears both song and gentle word.

The father, still toil stained, whether he comes from field or shop, stoops to kiss the mother, also toil stained. He speaks softly, mayhap: "Howdy, sweetheart; glad to be

home again." She turns a sweat-marked face un to his, in farmhouse or tenement, and

answers: "I'm glad to have you home." Of all this the child is the witness. Things of the world are yet new and strange to it. Mysteries still confront

it. Guiding stars it is searching for. women and men allke were heroic in and lo, in the very greetings of mother and father, in their own loving attitude toward each other, this undeveloped life finds a star. Such is the influence of environ-

ment of two personalities-that of father and mother-upon the quesnished the meat for the feast. This tioning child, blood of their blood and

KEEPING DOWN HUMAN SUPPLY

flesh of their flesh. How powerrun. how everlasting, when between mother and father, patience, self-consideration, forbearance and forgiving are always kept uppermost in the mind!

If, on the other hand, the child must see in daily home life impatience, selfishness; hear hasty or angry words, from those whom it knows long before it understands the law of city, ocunty, state, or nation, what contempt must naturally grow in its heart for those things that make for the best of lifelaw and order, gentleness of speech, regard and love for others, trustfulness and hopefulness.

The personal home environment of child has much to do with its future state of mind as to respect for work, law and humanity.

Advice to Alpine Climbers.

In the earlier part of the nineteenth century many even of those who had been up Alpine peaks themselves denounced the sport. Regarding the ascent of Mount Blanc, Murray's Handbook in the year 1838 stated that "alt who have succeeded have advised no one to attempt it," and nearly 20 years later noted the "remarkable fact that a large proportion of those who have made this ascent have been persons of unsound mind."

Scotch Query.

A bluff, consequential gentleman from the south, with more beef on his bones than brain in his head, riding along the Hamilton road, near to Blantyre, asked a herdboy on the roadside, in a tone and manner evidently meant to quiz, if he were half-way to Hamilton?" "Man," replied the boy, "I wad need to ken whar ye hae come frae, afore I could answer your question."-Exchange.

Paid Minister In Tinfoll.

The meanest man in the world has been found. He is the man who gave the Rev. Thilo Gore, pastor of the German Lutheran church, an envelope filled with tinfoil for marrying him.

The bride and groom rang Dr. Gore's doorbell late one night and asked him to marry them. As they had a license, he did so. After the ceremony was performed the man handed the minister an envelope which was supposed to contain the fee. He found it contained nothing but several pieces of tinfoil.-Chicago Tribune.

Many Soldiers in Munich.

One cannot walk half a square in Munich without hearing the clank of a sword. It makes one think of two things, preparedness and taxes. The inflammation promptly. Germi-German officer and soldier is omnipresent. He looms up before you, in his close-fitting gray coat and high red collar, at the theater, the opera, the concert, the cafe-everywhere. He passes your window, perhaps in the morning at the head of a company of soldiers, all of them singing a rousing marching song at a rapid cadence. And it is the singing soldier is unlike anything we hear at home.

One hundred of him marching down a hard granite street at sunrise, with the tramp of many feet marking the time of the song, will get anyone out again until it dies away in the dis-

Dried Peas as Liver Pills.

An enterprising swindler in England has recently been arrested for selling dried peas as "little liver pills." They were sold on the assurance that they were "excellent medicine." Of course, dried peas are not an "excellent medicine," neither will they cure "liver trouble," but the same may be said of the many liver pills which contain drugs and are sold under claims even more fraudulent. The British swindler should have been better informed. When he desires to sell "liver pills" he should put some drugs in thempoisonous or otherwise, the kind doesn't matter. Then he can lie about his product to his heart's content and he will be immune from ar-In fact, if he can sell enough of them he may look forward to a peerage. In Great Britain, as in the United States, it is not the mere act of swindling, but the method, that proves dangerous.-From the Journal of the American Medical Association.

Truth About Old Age. George F. Baer, the famous Phila-

delphia railroad man, said on his seventieth birthday:

"I agree with Professor Metchnikoff about the wisdom of the old. Professor Osler made it fashionable to decry gray hairs, but my experience has been that the old not only possess wisdom, but they seek it also.

With a smile Mr. Baer added: "The only people who think they are too old to learn are those who feally are too young."

## THE RIGHT SOAP FOR BABY'S SKIN

In the care of baby's skin and hair, Cuticura Soap is the mother's favorite. Not only is it unrivaled in and refreshing fragrance, but its gentle emollient properties are usually sufficient to allay minor irrilations, remove redness, roughness and chafing, soothe sensitive conditions, and promote skin and hair health generally. Assisted by Cuticura Ointment, it is most valuable in the treatment of eczemas, rashes and other itching, burning infantile eruptions. Cuticura Soap wears to a wafer, often outlasting several cakes of ordinary soap and making its use most economical.

Cuticura Soap and Ointment sold throughout the world. Sample of each free with 32-p. Skin Book. Address post-card "Cuticura, Dept. L. Boston."
